4V5 one point docked for lack of lightsaber noises.. Great gameplay with horrible music.. Have to have a controller or else you can not play.

Local multiplayer only.. Can this have Computers or Online mode?. theres not a lot of maps or content, and you cant play online with your friends. this game isnt worth 5\$ but maybe on a 75% sale it might, it gets boring after 10 minutes. Great game, fun to play with friends! More maps and Star Wars modes (Steam Workshop) would be awesome. Recommended!. I love this game it is incredibly fun playing with your friends, i bought it as soon as it came out because it looked cool and unique, it does kinda sucks that you have to have a friend to play but the gameplay is smooth and fun. I suggest adding the possibilty of increasing and decreasing heart amount and maybe let the other trigger do longer throw or something. But overall it is a great game to play with your friends.
